Dear Sirs:

Your Notice of Assessment against the Moab Irrigation Company for \$2,374.06 for the 1983 season was presented to our Board of Directors at their regular meeting held yesterday evening. They approved the payment but asked that we be furnished the statement showing the computation for this year, which I requested in my letter of March 30.

Inasmuch as I have not yet received this information I am wondering if my letter might be held up someplace and am enclosing a copy herewith.

We will appreciate your immediate attention so we will not be late in our payment.

Thank you.

Very truly yours

  
Margie M. Shafer, Secretary.

Re: 1983 assessment for Mill Creek (Grand County) Distribution  
System. Account No. 1A

I am in receipt of your notice of assessment for Moab Irrigation  
Company dated March 28, 1983, in the amount of \$2,374.06.

Our Board of Directors will meet on April 5 at which time your  
statement will be approved and paid immediately thereafter. In the  
meantime, can you send me a copy of the computation for this  
assessment so our Board can be informed the total amount of the  
budget and the assessment levied against each user?

We understand that for the year 1983 the allocation of assessment  
was to be based on ownership as shown by your records and that  
hereafter it will be based on use of water. I need the information  
above set out to come to an understanding with the Grand County  
Water Conservancy District in regard the Deed our company signed  
to them on August 23, 1978, which deed provides for the reconveyance  
of said rights upon payment in full to the State of Utah by the  
Conservancy District. I am sure the allocation of costs for 1983  
do not take this conveyance into consideration but I want my record  
to show, also how the allocation was made to the high water users.

Thank you for your assistance.

Very truly yours

  
Margie M. Shafer, Secretary
